

Brillion Public Schools
Annual Notice of Student Assessment Information

Student Assessment

This notice is intended to notify parents and guardians of students attending school in the Brillion School District and the public of the state and District-required assessments that are being administered to students in the District. Students with disabilities and English Learners must participate in the required assessments, with appropriate modifications where necessary, or in alternative assessments as deemed necessary or appropriate consistent with legal requirements.

Student Academic Assessments Required by State and Federal Laws

The federal Every Student Succeeds Act (ESSA) requires all states to test all students in English language arts and mathematics in grades 3-8 and once in high school, and to test all students in science at least once in grades 3-5, once in grades 6-9, and once in grades 10-12. Wisconsin state statutes also require districts to test students in social studies. These tests together create the Wisconsin Student Assessment System (WSAS). The District administers the following WSAS assessments to students in the District:

- The [Wisconsin Forward Exam](#) is administered to students in grades 3-8 in English language arts and mathematics, in grades 4 and 8 in science, and in grades 4, 8 and 10 in social studies. The Forward Exam is a computer-administered, summative assessment which provides information about what students know and can do in relation to the Wisconsin State Standards. It includes multiple-choice questions, short answer questions, and a writing prompt in the English language arts section. Forward Exam results provide information about student performance that allows: (1) students to reflect on their achievement, (2) teachers to target instruction to student needs and reflect upon their own instructional practices, (3) administrators to more fully understand what students know and can do in order to guide curriculum and professional development decisions, (4) parents and guardians to understand what their child knows and is able to do in English language arts, mathematics, science, and social studies, and (5) all stakeholders to check how ready all students are for college and career, especially those groups that have historically been left behind.

TIME PERIOD ADMINISTERED: March 18-May 3, 2019

DISSEMINATION OF ASSESSMENT RESULTS: Assessment results will be shared with parents in early fall of 2019.

- [ACT Aspire™](#) is administered to students in grades 9 and 10. This summative, online assessment measures what students have learned in the areas of English, reading, mathematics, science and writing. The scores on this assessment are used to predict how a student will perform on both the ACT® and ACT WorkKeys® when they reach 11th grade.

TIME PERIOD ADMINISTERED: April 8—May 10, 2019.

DISSEMINATION OF ASSESSMENT RESULTS: Fall of 2018 or shortly after the results are made available to the school.

- The [ACT® Plus Writing](#) assessment is administered to students in grade 11. This paper and pencil assessment tests students' skills and knowledge in reading, mathematics, English, science and writing. This assessment helps students understand what they need to learn next so they can build rigorous high school course plans and identify career areas that align with their interests. The scores from the administration of the ACT® Plus Writing (if taken with ACT Standard Time or ACT-approved accommodations) can be used by students for a variety of purposes including college admission, scholarships, course placement, and National Collegiate Athletic Association (NCAA) eligibility.

TIME PERIOD ADMINISTERED: February 20, 2019

DISSEMINATION OF ASSESSMENT RESULTS: Spring of 2019

- The [ACT WorkKeys®](#) assessment is administered to students in grade 11 and tests students in applied mathematics, locating information, and reading for information. This paper and pencil assessment is used to help students understand how they can improve their career readiness skills and helps employers determine whether individuals are qualified for positions. Students can earn National Career Readiness Certificates (NCRC), which are recognized by business and industry nationwide.

TIME PERIOD ADMINISTERED: February 21, 2019

DISSEMINATION OF ASSESSMENT RESULTS: Fall of 2019 or shortly after the results are made available to the school.

- All students are administered the above-mentioned assessments, with or without accommodations, except students with significant cognitive disabilities who are administered an alternative assessment – the [Dynamic Learning Maps \(DLM\)](#). The DLM is administered to students with significant cognitive disabilities in the subject areas of English language arts and mathematics in grades 3-11, science in grades 4 and 8 – 11, and social studies in grades 4, 8, and 10. This online assessment is delivered via the computer; however, some students may need their teacher to present the items to them and enter the student's response into the online platform. The DLM system is designed to map a student's learning throughout the year and uses items and tasks that are embedded in day-to-day instruction. The assessment results give teachers the opportunity to see what students know during the year when teachers still have time to change instruction to better support student learning.

TIME PERIOD ADMINISTERED: March 18—May 3, 2019

DISSEMINATION OF ASSESSMENT RESULTS: Fall 2019

School level summary reports of the results of the WSAS academic assessments are available to the public on the Department of Public Instruction's website at [WISEdash Public](#).

Other Student Assessments Required by State and Federal Laws

- **Reading Readiness Assessment 4K**

As required by state law, the District administers a reading readiness assessment to students in Grades 4-year-old kindergarten through Grade 2. The teachers of 4-year-old kindergarten are using the Phonological Awareness Literacy Screening (PALS), which is a research-based screening and diagnostic tool. Teachers of 5-year-old Kindergarten through Grade 2 are using assessments taken from Fountas and Pinnell's Benchmark Assessment System. These assessments include screening for letter recognition, letter sound knowledge, early literacy behaviors, and phonological awareness skills including rhyming, blending, and segmenting. Teachers use these screening tools to identify students at risk of developing reading difficulties, diagnose students' knowledge of literacy fundamentals, monitor progress, and plan instruction that targets students' needs. Student data collected from the screening tool provides a direct means of matching literacy instruction to specific literacy needs.

TIME PERIOD ADMINISTERED: Assessments will be administered in September 2018 for grades 5K-2 and October 2018 for 4-year-old Kindergarten. In Spring, all assessments will be administered in May 2019. Students who are identified as "at-risk" will also be assessed in January 2019.

DISSEMINATION OF ASSESSMENT RESULTS: Assessment results will be provided to parents at conferences in October 2018 and February 2019, or with student report cards in December 2018 and June 2019.

- **English Learner Assessments**

As required by state and federal laws, the District administers the following assessments to English Learners in the District:

- The [ACCESS](#) Screenet is administered to students newly enrolled in the District who have been identified through the enrollment process, and in accordance with District procedures, as English Learners. This English language proficiency “screener” assessment helps the District determine whether or not a child is in need of English language instructional services, and if so, at what level.

TIME PERIOD ADMINISTERED: Students will spend one hour or less to complete the assessment. The assessment will be administered shortly after student enrollment and/or by Sept. 30 of the current school year.

DISSEMINATION OF ASSESSMENT RESULTS: Results will be utilized by the ELL teacher.

- The [ACCESS for ELLs®](#) assessment is administered, with or without accommodations, to students in grades K-12 who have been identified as English Learners, including those who receive special education services. This online assessment is administered annually to English Learners to measure English language proficiency and to ensure that they are progressing in achieving full English proficiency. ACCESS for ELLs® assessment results: (1) help students and families understand students' current level of English language proficiency along the developmental continuum; (2) serve as one of multiple measures used to determine whether students are prepared to exit English language support programs; (3) generate information that assists in determining whether English Learners have attained the language proficiency needed to participate meaningfully in content area classrooms without program support; (4) provide teachers with information they can subsequently use to enhance instruction and learning in programs for their English Learners; and, (5) provide the District with information that can be used in evaluating the effectiveness of the District's English Learner/bilingual programs.

TIME PERIOD ADMINISTERED: December 3, 2018—February 1, 2019

DISSEMINATION OF ASSESSMENT RESULTS: Results will be sent home in the Spring of 2019.

- The [Alternate ACCESS for ELLs™](#) assessment is administered to students in grades 1-12 who are identified as English Learners and have significant cognitive disabilities that prevent their meaningful participation in the ACCESS for ELLs® assessment. The assessment results are used to monitor student progress on an annual basis, establish when English Learners have attained English language proficiency according to state criteria, inform classroom instruction and assessment, and aid in program decision making.

TIME PERIOD ADMINISTERED: December 3, 2018—February 1, 2019

DISSEMINATION OF ASSESSMENT RESULTS: Results will be sent home in the Spring of 2019.

- **High School Civics Test**

As required by state law, the District administers a civics test to high students in grade 10, which is comprised of 100 questions that are identical to the 100 questions that may

be asked of an individual during the process of applying for U.S. citizenship by the United States Citizenship and Immigration Services. Successful completion of this civics test (the student correctly answers at least 60 of those questions) is a requirement for high school graduation in the District. A student may retake the civics test until the student obtains the passing score. For students with disabilities who have an individualized education program (IEP), this requirement shall be modified or waived to the extent provided by the student's IEP and/or by applicable law.

TIME PERIOD ADMINISTERED: The test will be administered in the tenth grade government class.

DISSEMINATION OF ASSESSMENT RESULTS: Results will be on the student's report card as WI Civics Exam and a pass/fail.

Student Participation in Assessments and "Opt-Out" Information

Parents and guardians of students attending school in the District may request information regarding student participation in any of the state or District-required assessments, including any parental rights they may have to opt their child out of taking a required assessment, from the building principal of the school their child attends. The building principal shall provide the requested information in a timely manner.
